

Rotherham Opportunities College

Opportunities

Our opportunities pathway is focused on developing communication and independence, offering a personalised path to develop skills through a bespoke curriculum in preparing for adulthood; Employment and Training, Living Independently, Community Inclusion and Health.

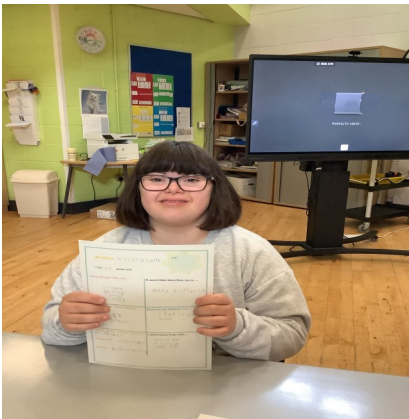

Communication

Developing communication skills through Sing & Sign lessons, tell people how you're feeling with PECs and using Makaton to help with understanding.

Therapies

Therapeutic expertise is embedded throughout our curriculum and is supported through one to one and small group sessions.

Independence

Skills are developed through Independent Living sessions in the classroom and in our ILS house. Pathway Travel Training and a bespoke PSD curriculum also promote our student's independence.
